to Leave Islands to Self-Government Would Be Remarkable Evidence of Lack of Saulty.

[Special to The Times-Dispatch.]
New ork, June 4.—"Are we to let the Philippine Isalands go, and turn them over to an oligarichy of eloquent and attractive orators who really believe in aristocracy, and who have no real conception of civil and individual liberty, and certainly no capacity by training and education for a successful popular apovernment; asked former President William Howard Taft in a statement given to-day. "The minute that the strong back fround of a powerful government is witidarawn, the differences between tag Filiphnos and the Moros, who are mutinous and have no sympathy with the Filiphnos and have a racial harted for them, will at once develop. The Moros have notified us that they will not stand Filiphno government, and the Filiphnos say that they cannot take over the Island unless they take over all of them.

"For us to leave the islands and to guarantee to the nations of the world in exchange for the treates of neutrality with respect to the islands, that law and order will be preserved and there will be preserved and there will be preserved and there will be preserved and the will will be no civil commotion, would be an evidence of lack of sanity, that I cannot think that the American people will ever display.

"If they should, it would not be a year before we would have to go back into the islands in order to maintain the peace that we had guaranteed to the world.

"The great body of the adult Filipinos to-day, steeped in ignorance, do not know their own rights under the government under which they are now living. The supreme difficulty of maintaining a government of free civil institutions there is in giving the uneducated and the poor an understanding of what their rights are. They do not know enough to vindicate these rights by the methods secured to them now by appeal to the courts, and to the constituted police authorities. ow by appeal to the courts, and to the
